Station Chepauk, Madras., *Dated the* 9th August 1941

From (Name) Sri Rao Bahadur L.Venkatakrishna Ayyar, B.A.,B.E.,
(Designation) Chief Engineer, P.W.D. (General)

To The Secretary to the Government of Madras,

PUBLIC WORKS Department.

Sir,

In G.O.No.801 P.W.D., dated 26th March 1941 sanction was accorded to the continuance of the Special Subdivision for Plassey Barracks work, with the following Executive Staff:--

One Sub Divisional Officer and 3 Supervisors - For a period of six months from 4th March 1941 forenoon.

Two Supervisors - For a period of 2 months from date of employment from or after 4th March 1941 forenoon.

One Supervisor - For a period of 5 months from date of employment from or after 4th March 1941 forenoon.

Two out of the six supervisors have been disbanded on the expiry of sanction and there are 4 supervisors employed on the work now. The sanction for the Subdivision with the entire staff will expire on 3rd September 1941 afternoon. The Superintending Engineer, Bezwada Circle, now reports that with reference to the period of utilization of the sanction as accorded in G.O.No.801 P.W.D., dated 26th March 1941, one of the supervisor's sections (the 4th Supervisor now employed on the

work

work) has to be closed on 10th August 1941 afternoon but that in view of the pending items of work which cannot be expected to get completed by 3rd September 1941 (the date of expiry of the existing sanction to the Subdivision), it would be necessary to continue that supervisor for a further period of 3 months i.e., upto 10th November 1941 afternoon. The Superintending Engineer also applies for the continuance of another supervisor for a period of six months from 3rd September 1941 afternoon to attend to the new works that have been sanctioned for execution - vide copy of the Superintending Engineer's letter enclosed. The Superintending Engineer's proposal amounts to this: Out of the existing staff of one Sub Divisional Officer and 4 Supervisors, the SubDivisional Officer and 2 Supervisors i.e., the Subdivision with two supervisor sections - to be disbanded on 3rd September 1941 afternoon and two supervisor sections - one upto 10th November 1941 afternoon and the other upto 3rd March 1942 afternoon - to be continued thereafter. It is also pointed out by the Superintending Engineer that the total period of sanction (including the period of extension to the two supervisors now applied for will come to six months only, calculated from 4th March 1941 forenoon and as sanctioned in G.O.No.855 P.W.D., dated 1st April 1941.

2. As the remaining items of works would take some time to get completed, as stated by the Superintending Engineer, the demand for the continuance of one of the supervisors upto 10th November 1941 afternoon (with a peon) is justified and is therefore recommended for sanction. The continuance of another supervisor beyond 3rd September 1941 afternoon would also be necessary in view of the new works to be executed. But as Government have ordered that the new works concerned should not be undertaken until they have considered some modifications proposed by the Inspector-General of Prisons and as final orders have not yet been received, the continuance of the supervisor will become necessary only if the works are taken up for execution in the meanwhile. The sanction for the continuance of one supervisor and a peon for a period of six months from 4th September 1941 may however be accorded subject to the condition that the sanction would be utilised only if orders of Government to proceed with the new items of work, are received in the meanwhile

3. The sanction now sought for as explained in the foregoing para is, therefore:-

1) Continuance of one supervisor for 3 months from 10th August 1941 afternoon to 10th November 1941 afternoon.

& 2) Continuance of another supervisor for six months from 3rd September1941 afternoon to 3rd March 1942 afternoon (subject to the proviso referred to).

I am authorising the Superintending Engineer to continue the Supervisor beyond 10th August 1941 afternoon in anticipation of the sanction of Government and I request that my action may be approved.

Reasons:

Reasons:

Position regarding works under the Scheme.

Blocks 3, 4, 5 and 8, with outhouses, screen wall separating J.C. School Water Supply System, have been handed over to the Jail Department on 30-6-41.

(1) Orders from the Government regarding the construction of screen wall separating J.C. School from Blocks 3, 4, 5 and 8 and consequent proposal to construct a new block of six quarters for the 2 Sub Assistant Surgeons and 4 members of petty staff of Alipuram Jail, now housed in the Block 14, were received late. Estimate for new quarters costing Rs.18,500/- is under check in Division Office and work can be started only after receipt of approval of Superintending Engineer. This may be commenced in 2nd week of August 41, and allowing for all seasonal the war situation resulting in shortage of waggons etc., this work may be expected to be completed by end of 1/42.

(2) Supply and erection of new Engine and pump at the Alipuram tank - Rs.8000/-. Some selected firms have been addressed again to furnish further particulars regarding their quotations. If orders are placed before 15.8.41, the supply and erection may be expected to be completed by end of October 1941.

(3) Of the works requisitioned by Inspector of Prisons in 3/41 for which the approval of Government is awaited the following items are to be taken up.

A number of miscellaneous requisitions regarding buildings etc., are sent to us, which normally are carried out by the Jail Department, on Jail Buildings elsewhere. To supervise the works in items paras 1-3 above and to attend to the requirements of the Jail Department, one special supervisor is essential for a period of six months after the closure of the Subdivision (i.e.,) 3--9--41.

There is still considerable work to be done, before the closing of the Subdivision 3--9--41., besides the above.

(a) Constructing of kitchen with Cooking range, food mounding shed, and fuel godown. This is normally expected to be completed by 31-8-41, if the range articles are received at site before 31-7-41. Otherwise there may be some delay in completion of the kitchen.

(b) Repairs and improvements to 2 outhouses for use as quarters for 3 members of petty staff.

(c) Repairs and improvements to Block of huts at entrance of J.C.School for xxx Qurters of 4 warders.

(f)

(f) Extension of Interviewers shed and providing roofing

(j) Incinerators construction of.

Further elaborate office work is involved viz., (i) accounts have to be closed (ii) Plans of pipe line system (Municipal and Alipuram Supply) & Electrical installations, as completed have to be prepared (iii) Completion certificate for works completed have to be furnished (iv) the Register of buildings has to be corrected wholesale for these buildings. (v) Revaluation of buildings including the improvements carried out has to be worked out.

All these items of works require the attention of one additional supervisor for 3 months from 11--8--41 to 10-11-41.

Copy submitted to the Chief Engineer, P.W.D., General, Madras.

In G.O.No.Ms.801. P.W.D., dated 26/3/1941, communicated with your Endt.No.1011-E/41 C.R., dated 31/3/41 sanction was accorded for the entertainment of the following supervisors for Plassey Barracks works:--

3	Supervisors for	6 months or say	18 months.
2	-do-	2 months.	4 ,,
1	-do-	5 months.	5 ,,
		Total.	27 months.

In G.O.No.Ms.855 P.W.D., dated 1/4/41 communicated with your Endt. No.686-E/41-9, dated 7/4/41, sanction for the entertainment of six Supervisors for a period of six months was accorded. The Exec. Engineer enquires whether the latter sanction can be availed of in view of the circumstances detailed in his letter. Since the date of original sanction, considerable additional works have been added to those originally contemplated. I consider that the request of the Exec. Engineer is reasonable and sanction for the continuance of the Supervisors as applied for by the Executive Engineer without exceeding the limit of 6 x 6 months or 36 months sanctioned in G.O.No.Ms.855 P.W.D. dated 1/4/41 may please be accorded.

The Sub Division will be closed on 3/9/1941 A.N. according to the sanction at present existing and the Supervisors that are to continue beyond this date will be attached to the Bellary Sub Division.
